

Proposal to differ between “function” and “feature” of an ADS

Visualization

Definitions (FRAV-03-05 Add.2)

- “Automated Driving System (ADS)” means the hardware and software that are collectively capable of performing the entire dynamic driving task of the **functions** available on a vehicle on a sustained basis.
- “ADS function” means an application of one or more ADS **features**.
- “**ADS feature**” means a **specific capability with a defined DDT enabled by a technical subsystem of the ADS.** new!
