

Summary of discussions in GRVA(5) for the draft technical requirement for DSSAD for ALKS:

General comment:

DSSAD to work together with ACSF group to amend to address the following “Remarks” given by GRVA until 6th session of GRVA March.

Remarks

- “Demist” should be included as well as windscreen wipers and lights. (Korea)
- The word of “ALKS” should not be appeared frequently. (Netherland)
- To avoid unlimited data deletion, the requirement should be modified. (Sweden)
- To correct inconsistency on “Occurrences n) – s) ”. These are appeared as examples in 5.1.3 of GRVA-05-7r1e but are mandate in Chapter 8. (GRVA secretary)
- These is a need to store information related to software update. However, the current document is not clear what information to be stored. (Some CPs)
- To address ALKS requirement 6.2.3(The system shall become active when “- DSSAD is operational”), additional requirement for DSSAD is needed. (Sweden)

Modifications according to the “Remarks” above were included in “GRVA-05-07r3e”.
