Measures and restrictions against COVID-19 in Colombia

- The use of face masks is no longer mandatory in open spaces and later in closed spaces, this, for municipalities that have completed 70% of complete vaccination schedules and 40% of booster doses. Its use will continue to be mandatory in health centers (hospitals, clinics, laboratories, among others), in nursing homes and on public transport. As of May 15, the use of masks will no longer be required in schools.
- The vaccination card will no longer be mandatory to enter massive and closed events, restaurants, bars, museums, cinemas, sporting events, among others.
- Travelers may enter with a negative PCR or antigen test, without the need to have the complete vaccination schedule. The test will have to be carried out in the 72 hours prior to arrival in Colombia –48 hours if it is an antigen test–. In addition, the option of presenting the complete vaccination schedule will be maintained, without requiring additional proof.

Remarks from the International Road Transport Union

17.06.2020

Following the expansion of the national quarantine measures until 1 July, on 17 June the Colombian Transport Authority updated guidelines for transport operations.

Intercity transport services are only used for the provision of health services and for people in need. Public transport (BRT) operations are only allowed a maximum occupancy rate of 35% per vehicle. Taxi operations are allowed without restrictions. Transport of tourists and students is not allowed. Coaches and school buses are being used to support the BRT operations.

Until 1 July, long haul passenger transport operations are only allowed in exceptional cases. From that date, long and medium haul bus operations will be allowed to operate in coordination with the municipalities of the place of departure and destination respectively.

On 6 May, the Colombian Government extended the national quarantine until 25 May.

The government has set up a Logistics and Transportation Centre to manage the transport of cargo and passengers by air, land, river, maritime and rail.

Intercity transport is only used for access to or provision of health services and for people who require mobilisation and are authorised under the terms of Decree 457 of 22 March 2020.

Urban transport operations (BRT) are allowed, but with an occupation rate of 35% per vehicle, to be used by people who can benefit from exemptions. Individual passenger transport (taxi) only works by telephone or through apps. Tourist transport and school transport services are suspended.

Goods transport operations guarantee the services necessary to mitigate the spread of Covid-19 as well as the support to other industries that are allowed to operate by Decree 457 of 22 March 2020.

23.03.2020

International air transport flights for passengers are suspended from 23 March to 23 April. This suspension includes both arrivals and any connecting flights. National air transport flights will be suspended with effect from 24 March.

The transportation of passengers by road will be suspended with effect from 24 March, with the exception of passengers providing services related to the production of food, public services or the health service.

Urban transport is continuing to operate, although in lower volumes and with strict sanitation standards regarding vehicle washing and the state of health of drivers.

Taxi services are continuing to operate, but only those requested through mobile applications or by telephone.
