Remarks from the International Road Transport Union
Forthcoming

The General Directorate of Customs of Costa Rica, due to the world situation regarding the COVID-19 pandemic, has taken the following measures:

- The implementation of special procedures have been activated.
- The digitalization of the procedures is being applied so that they can be done by mail without the need to personally present the documents.
- Directive DGA-003-2020 was created to control the export or re-export of medical implements.
- Enabling measures are being implemented that do not paralyze the import and export activity. More green channels, not requiring original documents, creating special procedures.
- The Fiscal Relief Law was approved, which defer the payment of VAT taxes; RENT; CUSTOMS, without interest or fines. It is defined for three months, renewable.
- Minimize audits and change the strategy when the case allows it. Intensify the subsequent control of declarations almost immediately upon dispatch.
- Information campaigns will be maintained for staff and users.
- Protective materials will be provided for personnel, according to our possibilities.
- An entrance control is maintained, so as not to exceed the maximum permitted occupancy capacity.
- In order not to affect the service to the public due to the restriction of face-to-face attention, the email contacts of the different addresses, customs and departments were made available at regular hours.

Physical inspections of goods have been minimized (going up to the green channel) and the use of protection for officials who must remain working.

March 16, 2020: The Board of Port Administration and Economic Development of the Atlantic Slope (JAPDEVA) informs that the arrival of cruise ships with passengers at the Hernán Garrón Salazar Terminal is totally suspended. The suspension applies until April 30, 2020 in the first instance. The measures ruled suspend the arrival of cruise ships with passengers and the entry of crews remains enabled as long as they are approved according to the health protocols implemented by the competent authorities. JAPDEVA reported that the care services for cargo ships are maintained.
