Remarks from the International Road Transport Union

Forthcoming

Source:

According to the information received from the General Department of Land Transport of the Ministry of Public Works and Transport of Cambodia on 7 May 2020, there

are no international road transport restrictions imposed by Cambodia. Relevant authorities make necessary adjustments to ensure and facilitate the continuous movement of goods by road. Nevertheless, preventive measures are being implemented at the border crossing points by relevant authorities, such as temperature check, travel history check and necessary medical procedures for drivers to ensure that they are not infected before entering and exiting Cambodia.
