Remarks from the International Road Transport Union

24 March 2020

Further to the announcement of a state of emergency in Kazakhstan, the queues at the Uzbekistan-Kazakhstan borders were carefully monitored. The situation has now been stabilised for the international road transport of goods.

The following three border crossing points between Uzbekistan and Kazakhstan are running effectively according to emergency guidelines:

- Kaplanbek (Turkestan region);
- Kazygurt (Turkestan region);
- Tazhen (Mangistau region).

The queues have now been considerably reduced.

Starting from March 16th, Uzbekistan is suspending all air and road connections with third countries. Railway connections will be closed in 3 days.

According to the State Customs Committee of Uzbekistan, restrictions shall not apply to persons and vehicles engaged in goods transport by road, rail, sea, river, and air. However, and according to information collected on the field, delays at Kazakh-Uzbek borders are reported following the restrictive measures taken by the Republic of Kazakhstan.
