Commercial road transport

According to the latest exchange (25 and 26 March) with the Croatian authorities, the current situation is the following:

· There are no limitations to transit at the border crossings when using green lanes, as defined by the European Commission communication (see Annex 1 and the green lanes map). Green lanes are open for both transit (in convoys of 50 trucks) and the unloading of trucks in Croatia;

· With regards to the paper documents, Croatia is following the European Commission communication on the implementation of green lanes in order to demonstrate their flexibility;

· Convoys are formed on the Slovenian border crossings with Austria and Italy. For goods in transit, they continue driving in convoy across the Croatian border but still within the country, up until the border of the next destination country.

· There is no convoy for goods delivered inside Croatia.
