Remarks from the International Road Transport Union
02.04.2020

In order to guarantee the flow of supplies, especially those destined for the supermarkets and pharmacies, the Dutch Minister of Infrastructure and Water Management has extended the relaxation on driving and rest times until 1 June 2020.

The same conditions continue to apply for the following:

· Maximum daily driving time of 11 hours
· Maximum weekly driving time of 60 hours
· Maximum fortnightly driving limit of 96 hours
· Postponement of a weekly rest period from six to seven 24-hour periods.

Currently, the Netherlands is under a relatively relaxed Coronavirus (COVID-19) regime. Most people work from home. The government aims to have the number of infected people at the same time under control. Shops remain open although certain department stores have individually decided to close.

To enable an efficient loading and unloading procedure at shippers' premises, it is recommended that drivers take personal protection materials with them such as masks and gloves.

The associations are in communication with the government in order to safeguard restaurants and other facilities for drivers. The Ministry recommends that drivers take their meals at fuel stations. All other restaurants remain closed until at least 6 April.

There is an ongoing debate in the Dutch Parliament and it is possible that measures will become stricter in the coming days.
