WCO/State Customs Committee of the Republic of Belarus

10.04.2020

In order to take operational measures to overcome the negative consequences of the spread of coronavirus infection 2019-nCoV, a “green corridor” has been organized for certain essential goods, which provides for performing customs operations as a matter of priority and as soon as possible in customs checkpoints, as well as the possibility of extending the working time of customs checkpoints if such a need arises.

Remarks from the International Road Transport Union

29.04.2020

On 28 April, in accordance with the amendments to the Decree of the Council of Ministers No. 171 “On measures to prevent the importation and spread of infection caused by the coronavirus COVID-19”, the Ministry of Transport and Communications of the Republic of Belarus provided an updated map of routes for vehicles transiting through the territory of the Republic of Belarus which indicate the locations for stopping/parking, rest and refueling. In particular, an additional stopping/parking point has been included: M-1/E30 Brest (Kozlovichi) - Minsk - border of the Russian Federation (Redki), 6 km (right) - fuel station Tabelnefteprodukt.

The Government of Belarus has issued a Regulation No. 208 of 8 April 2020 which introduces additional restrictive measures. This document shall enter into force on 10 April 2020.

The new regulation notably requires that self-isolation requirements shall also be applicable to drivers after completion of international road transport of goods in the territory of Belarus. This also includes drivers who were replaced, in the course of the transit transport operation, and are arriving from countries where COVID-19 has been registered. This applies until the next road transport operation or within 14 calendar days.

The regulation also requires that drivers performing international road transport operations across the territory of Belarus, must have personal protective equipment (medical masks, gloves) on board and use them when they leave the cabin.

Belarus has also added to the list a few more locations where drivers in transit are allowed to stop (park) for rest and meals, or refuel vehicles. Please follow the links below to access updated map.

Transit of freight road carriers through the Republic of Belarus

In accordance with Decree No.171 of the Council of Ministers of
the Republic of Belarus dated 25 March 2020, all drivers
performing transit of goods through Belarus are obligated to use
only approved national roads and park in specified areas to rest,
have meals or refuel, according to the list of roads and specified
parking areas approved by the Decree.

Transit drivers are obligated to leave the territory of Belarus by the
shortest route possible, by no later than the day after entry onto the
territory of Belarus, unless it is impossible to comply with the
specified period due to vehicle accident/breakdown, unloading or
transshipment cargo, vehicle replacement, or if it is provided for
within the terms of the contract of carriage and indicated in the
transport documents.

If it is necessary to carry out any of the above operations, a
deviation from the approved list of national road and specified
parking areas is allowed. However, operations should be carried
out in the shortest possible time.

While the vehicle is parked, transit drivers must not leave the
parking area.

The list of approved national roads and specified parking areas
attached in Decree No. 171 can be found here.
