Remarks from the International Road Transport Union

04.04.2020

On 1 April, the Swiss Federal Department of Justice notified the extension of border controls until 24 April. The prolongation involves borders with all Schengen states except land and air borders with France, Italy, Spain, Austria and Germany, which have been prolonged separately. Borders with the Principality of Liechtenstein are also exempted from the provision.

Therefore the current duration of border controls is as follows:

- All air borders except from air borders with Liechtenstein: 25 March 2020 – 24 April 2020
- Air borders with Spain, Italy, France, Germany and Austria: 18 March 2020 – 17 April 2020
- Land borders with France, Germany and Austria: 16 March – 15 April 2020
- Land border with Italy: 13 March – 12 April 2020
