From an EU Member State or Schengen Associated Country, may I enter this country without being subject to extraordinary restrictions?

Partially

Note: Greece adopts its own national classification of risk areas, hence travel restrictions for Greece are not based on the common "EU Traffic Lights" map.

Entry from EU Member States and Schengen Associated Countries is allowed.

As of 11.11.2020, all people travelling to Greece from foreign countries **will be required to show a negative molecular test result (PCR)** for COVID-19, performed up to 72 hours before their arrival. This includes arrivals by land and by air.

The certificate should be written in English and include the name and passport number or national identification number of the traveller.

The accepted laboratories that perform the RT-PCR testing can be:

- National Reference laboratories
- National Public Health Laboratories
- Private laboratories which are accredited from the respective national accreditation authorities (not necessarily specifically for COVID-19).

Certificates that do not fulfil the above criteria will not be accepted.

Children under 10 years old are not subject to the obligation of a PCR test.

The same requirement will apply to all visitors entering Greece via its land borders, including citizens, permanent residents of Greece and travellers for essential professional reasons.

In the event of a positive result, travellers will be contacted and placed on a **14-days quarantine**, with expenses covered by the Greek state. Otherwise, after a 7-days self-isolation, travellers may continue with their holidays, adhering to the general public health safety guidelines.

Mandatory Travel Documentation

Before entering the country, all travellers must complete a **Passenger Locator Form**

COVID-19 update: Revised restrictions in Greece

Truck drivers are now exempted from the daily quota of 400 entries from both border points Kakavia (Greece-Albania) and Evzoni (Greece-North Macedonia).

Source: OFAE

01.03.2021

CORRIGENDUM: New restrictions in Greece

Please find below a slightly corrected information about the new restrictions in Greece.

The maximum entry of 700 entries to Greece from both border points (Kakavia (Greece-Albania) and Evzoni (Greece-North Macedonia)) per day is now set at 400. This

COVID-19 update: New restrictions in Greece

Greek Civil Protection Deputy Minister announced new restrictions for entering Greece through the Kakavia (Greece-Albania) and Evzoni (Greece-North Macedonia) in efforts to limit the spread of the coronavirus (Covid-19).

According to the new restrictions, as of 6:00 hrs on Monday, 1 March 2021 and until 15 March 2021:

- Entrance through the Kakavia and Evzoni border points (including the passing of trucks) will be allowed strictly between 7am and 7pm
- The maximum entry of 700 entries to Greece from both border points per day is now set at 400. Truck drivers are exempt from the daily quota.
- All citizens (including truck drivers) entering Greece from Kakavia and Evzoni will be obliged to take a Covid-19 rapid test at both border points. Those who test positive will be denied entry.
- All citizens that enter Greece through both border points must self-isolate for 14 days (up from 7 days previously).

It is reminded that all persons (incl. truck drivers) going through Greece's entry points are already obliged to have filled out a Passenger Locator Form (PLF) prior to their trip.

Travelers (not truck drivers) are also obliged to present a negative PCR test of 72hrs.

In addition to the a/m information let me also mention that rapid tests are also performed at the ports of Patras and Igoumenitsa to all persons entering Greece via Italy, and since 25.02.21 rapid tests are performed at Promahonas (GR-BUL) which has caused long queues and delays at the BCP.

They have also introduced a daily quota of 400 persons entering via Kakavia and Evzoni including truck drivers.

23.11.2020

The following 9 countries are exempted from the entry ban into Greece: **Australia, Japan, New Zealand, Rwanda, South Korea, Thailand, Uruguay, Singapore, China*, UAE****. As of 11.11.2020, all people travelling to Greece from foreign countries **will be required to show a negative molecular test result (PCR)** for COVID-19, performed up to 72 hours before the entrance.

* Subject to confirmation of reciprocity.

** From 9.11.2020, permanent residents of the UAE may arrive **only by direct flights**. In order to enter the territory, they need to present to the air border control authorities the following documents:

- proof of permanent residence in the UAE;
- return tickets and hotel reservations;
- health checks (PCR COVID-19 test taken 72h before departure);
- passenger Locator Form (PLF);
- travel insurance.

Permanent residents of other third countries are allowed to travel to Greece only **for essential reasons**.

As of 21.12.2020, a **7-days quarantine applies to all travellers coming from the United Kingdom**.

May I transit this country?

Yes

May I enter this country by road transport?

Due to the epidemiological situation in the Balkans and Turkey, all the external land Greek borders are open only to **essential travellers**. Land border arrivals from **Bulgaria** are allowed through **Promachonas border station**. Before entering the country, all travellers must complete their **Passenger Locator Form**.

Greek citizens, permanent residents of Greece, transport workers and travellers for essential professional reasons can enter from the borders of Kakavia, Evzoni, Kipi (daily open only between 07:00 and 11:00). All travellers should have the PLF and QR code and additionally **hold a negative COVID-19 PCR test taken no more than 72h before their arrival**. Those entering from Kakavia Border Inspection Posts should additionally **self-isolate for 7 days** upon their arrival in Greece. There is a daily limit of 750 entries per day in Kakavia..

The BCP of Krystallopigi between Greece and Albania will remain totally closed until further notice. No entry nor exit will be allowed to any kind of vehicles. The only BCP between the two countries that remains open is Kakavia. Trucks can enter/exit Greece via Kakavia on 24/7 basis. Passengers holding a special permit and a negative PCR to enter Greece via Kakavia, may enter from 06am until 11pm. In addition there is a maximum number of 750 passengers /day that are allowed to enter via Kakavia. Truck drivers are exempt from this quota.

09.11.2020

The Greek Government has declared the country in a national lockdown as from Saturday 6th November 2020 and until 30.11.2020. There are no restrictions for international goods transport.

Some useful information about international transport truck drivers, as a reminder:

- When entering Greece from abroad, the **Passenger Locator Form** must be filled in.

Drivers can undertake transportations to/from Greece, but must motivate their reasons. This can be done by showing the CMR accompanied by an attestation provided by the employer, or the Transport Workers certificate according to Annex 3 of the EU Green Lanes Directive.

06.11.2020

Greek motorways Interoperability network - single toll pass (OBU) on all national highway

As of November 4th, 2020, all national road network operators in Greece integrate into the Interoperability network (GRITS). Drivers are as of last Wednesday able to drive on all Greek highways using a single electronic device (OBU) for tolls. The measure is expected to reduce lines and delays at toll posts, speeding up transport throughout Greece.

Subscribers equipped with any of the current OBUs from a Greek road operators, may make use of the Interoperability service when traveling along the participating motorways without any formalities being required since the service has been automatically activated.

Drivers interested in making use of this new service who are not equipped with an OBU may choose the transponder best meeting their needs depending on their place of residence, the road network they use more frequently etc. More information can be found here: <https://www.gefyra.gr/en/prices/Dialeitourgikothta-GRITS/>

27.10.2020

The Greek government has announced additional measures to contain the spread of COVID-19. The new measures in force from 24 October 20, include the following:

In the case of **Greece-Albania** borders, this also applies to Albanians citizens of Greek origin (Homogeny).

Employees of international land transport services, regardless of their nationality, must either transit or head to their destination and then undergo a 7-days isolation. There is an exception for members of international or European organizations, regardless of nationality, who may enter in order to work in Greece or transit through Greece, provided that they prove their function with appropriate documentation.

In the case of **Greece-North Macedonia** borders, there is an additional exception for EULEX staff and their family members that are allowed to enter for medical reasons in the Greek territory (Evzoni Border Inspection Posts).

All visitors from air, land or sea, will be subject to random tests upon arrival. Upon being tested, travellers move to their final destination. In the event of a positive result, they will be contacted and placed on 14-days quarantine, with expenses covered by the Greek state.

May I enter this country by sea transport?

No

As of 09.11.2020, sea arrivals with private yachts, cruise ships, ferry ships and any other professional tourist ships, as well as the disembarkation of passengers from these boats, are **prohibited**.

Sea from/to connection with Turkey and Albania (with the exemption of cargo ships) is temporarily suspended.

[Arrangements for the smooth movement of coastal passengers during curfew hours](#)

[Ship passenger rights](#)

General measures

From 07.11.2020 a general **nationwide lockdown** is imposed. Citizens in need of going out for essential reasons will have to notify it and to provide specific certificates according to the reasons for their movement. In order to move to/from workplaces, certificate A is required by filling out the form "Employee Traffic Certificate", while for the other kind of movements type B certificate is necessary. Every time citizens travel, they must also have their police ID or passport with them.

For additional information and for the necessary certificates, please visit www.forma.gov.gr (in Greek).

Furthermore, as of 13.11.2020, from 21:00 to 05:00, **a curfew is in place**, together with a ban on travelling outside home prefectures. Consequently, only essential movement is allowed (work, health, pet care).

- **A night curfew from 00:30 until 05:00 in the regional units category 3 (orange zone) and 4 (red zone).** Attica and Thessaloniki are included in these categories (**a full map showing which regions in Greece are affected** can be found [here](#))
- There is an exemption for those who work at night and for emergencies. Truck drivers who are working in the restricted areas during the night must have an attestation form from their employer. The Greek government has not provided a specific template for this purpose.
- **Masks are mandatory indoors and outdoors.**

12.08.2020

On August 10th 2020, Ministerial Decree with ref. number 1 / ... 50676 / 10-8-2020 ('3346), "Application of temporary restriction of the land connections of Greece, in order to limit the spread of COVID-19" (see [attached](#) document available in greek only), according to which "as of 17.8.2020 a negative molecular control test (PCR test) will be mandatory for anyone entering the country at land borders. The test must also have been performed up to 72 hours before entering Greece The obligation includes Greek citizens and holders of residence permits. The test must have been carried out in the country of departure or transit and not in Greece. Additionally, persons entering Greece for professional reasons during the validity period of this Decree and then exit, will not be allowed to re-enter the country until 31.08.20. Especially, for Greek citizens and permanent residents, re-entering Greece will be allowed only with a pre-notification by submitting the form on travel.gov.gr upon exit from the country."

The decree enters into force on 17.08.20 and will be valid until 31.08.20

Greek land BCPs:

- 1.Kakavia (GR-ALB), only for goods transport, operating daily hours 07:00-23:00
- 2.Krystallopigi (GR-ALB), only for goods transport, operating daily hours 07:00-23:00
- 3.Evzoni (GR-MD), only for goods transport, operating daily hours 07:00-23:00

Due to the increased epidemiological burden in the wider region of West Attica and specifically in the Municipalities of Aspropyrgos, Elefsina and Mausoleum, the Greek Government announced the tightening of the current lockdown, with a curfew from 18:00 to 05:00 in place. In these areas, the population is subject to rapid antigen tests, with special emphasis in the areas of Nea Zoi, Neoktista, Ano and Kato Fousa, Goritsa, Sofo of the Municipality of Aspropyrgos, but also in the wider area of Elefsina and Mandra. All the confirmed cases that do not require hospitalization, will be isolated in specific structures, especially if home isolation is not considered feasible.

[Health cover for temporary stays](#)

Use of facemasks

As of 3 November 2020, the use of face masks is mandatory both indoors and outdoors.

Physical Distancing

Citizens are encouraged to apply physical distance rules everywhere. Special social distancing rules have been set for a wide range of places, such as hospitals, medical centres, restaurants, cafés, offices, schools, universities, supermarkets, shopping malls, public transportation vehicles and stations, small shops, barbershops, places of worship, lifts, etc.

Precautionary measures may be subject to variations according to the epidemiological level of the different Regional Units.

14.07.2020

As of 06:00 on 15 July, all travellers entering Greece for non-essential reasons through the Promachonas border crossing point will be obliged to present the proof of a negative test upon arrival. The certificate should be dated within 72 hours of taking the test.

Only travellers who have such proof will be allowed to enter Greece by the border authorities. The certificate should be written in English and bear the name and passport/national ID number of the traveller.

The Laboratories that perform the RT-PCR testing should be:

1. National Reference laboratories
2. National Public Health Laboratories, or
3. Private laboratories which are accredited from the respective national accreditation authorities (not necessarily specifically for COVID-19).

Certificates that do not fulfil the above criteria will not be accepted. Certificate forgery is punished by Greek Law.

Travellers will still have to complete and submit their PLF form and may be subject to random testing upon arrival at the Greek border.

In order for these changes to be implemented, the PLF system will not be available for travel through Promachonas until 00:01 of 14 July. Travellers who had already issued their PLF forms will still be able to cross the Promachonas border crossing, but travellers without a PLF form will not be allowed to enter and should reschedule their trip for Wednesday 15 July.

The other land border stations remain closed for non-essential travel.

Further information can be found [here](#).

Source: OFAE

10.07.2020

The certificate should be written in English and include name and passport number or national identification number of the traveller.

The accepted laboratories that perform the RT-PCR testing can be:

09.07.2020

On 8 July, the Ministry of Citizen Protection withdrew the exemption initially granted to international transport workers from filling out the Passenger Locator Form.

Therefore, **drivers travelling to Greece have to submit the duly filled out form and get a QR code**; a dedicated check box for drivers has been included in the document, which allows the submission at any time before the date of arrival (whereas, passengers travelling to Greece must submit the form within 48 hours before their arrival).

Source: OFAE

07.07.2020

On 6 July, the Greek Ministry of Transport clarified that international transport workers are exempt from the obligation to fill in the online Passenger Locator Form.

Drivers entering Greece by ship are subject to random health checks and are also asked to fill in a health status questionnaire; whilst onboard, drivers must wear masks. The health form is available in [English](#), and is also provided by the ferry operator on site.

Source: OFAE

02.07.2020

From 1 July until 31 August, new procedures are in place for travellers arriving in Greece. All individuals entering the country must fill in a [Passenger Locator Form](#) (PLF) upon arrival. Passport and customs controls are carried out and each person's unique quick response (QR) code is checked on their mobile phone screen or on the printed form with their QR code. Depending on their code, arriving travellers are directed by security personnel either to the screening area or are allowed to continue their trip to their final destination in the country. They will be given instructions from the border personnel concerning, in particular, required action in case they develop symptoms of respiratory infection, in which case they must immediately contact the National Public Health Organization (EODY) Operations Centre. If arriving travellers plan to have multiple stop-overs in Greece, they must declare this and report their initial destination and their travel itinerary for the next 7 days. EODY Mobile Health Units (KOMY) operate around the clock at land border checkpoints.

Arriving travellers who test positive for Covid-19 are obliged to self-isolate at the address of their final destination as declared on their Passenger Locator Form (PLF). Their data is entered into the EODY information system, which is linked to the Covid registry to facilitate contact tracing in the event someone tests positive. Upon completion of the screening, and after having received instructions concerning self-isolation and until the results of their screening are announced, they can enter the country.

Due to the epidemiological situation in the Balkans and Turkey, all the external land Greek borders are open only to **essential travellers** until 30.11.2020. Land border arrivals from **Bulgaria** are allowed through **Promachonas border station**.

Before entering the country, all travellers must complete their [Passenger Locator Form](#).

Greek citizens, permanent residents of Greece, transport workers and travelers for essential professional reasons can enter from the borders of **Kakavia, Krystallopigi, Evzoni, Nymfeas, Kipi** (daily open only 07.00am-11.00am). All travellers should have the PLF and QR code and additionally **hold a negative COVID-19 PCR test taken no more than 72h before their arrival**.

Those entering from Kakavia and Krystallopigi Border Inspection Posts should additionally **self-isolate for 7 days** upon their arrival in Greece. There is a daily limit of 750 entries per day in Kakavia and 300 entries per day in Krystallopigi.

In the case of **Greece-Albania** borders, this also applies to Albanians citizens of Greek origin (Homogeny).

Employees of international land transport services, regardless of their nationality, must either transit or head to their destination and then undergo a 7-days isolation. There is an exception for members of international or European organizations, regardless of nationality, who enter in order to work in Greece or transit through Greece, provided that they prove their function with appropriate documentation.

In the case of **Greece-North Macedonia** borders, there is an additional exception for EULEX staff and their family members that it are allowed to enter for medical reasons in Greek territory (Evzoni Border Inspection Posts).

May I enter this country by sea transport?

No

As of 09.11.2020, sea arrivals with private yachts, cruise ships, ferry ships and any other professional tourist ships, as well as the disembarkation of passengers from these boats, are **prohibited**.

Until 30.11.2020, there is no sea from/to connection with Turkey and Albania (with the exemption of cargo ships).

05.06.2020

Passenger Transport:

From 1 to 15 June: Random testing on arriving passengers applies, and anyone who is allowed to enter Greece from abroad (i.e. people travelling by air from airports in areas **NOT** deemed to have "high risk of transmission", as [listed](#) by the EU Aviation Safety Agency) must self-isolate for 7 days, even if they have tested negative. Those testing positive must isolate for a further 7 days, bringing the total time of isolation to 14 days.

From 15 to 30 June: no travel restrictions apply on individuals entering Greece from abroad, but random testing still applies. However, people travelling by air from airports in areas deemed to have "high risk of transmission", as [listed](#) by the EU Aviation Safety Agency, will have to stay overnight in a designated hotel for testing. If they test negative, they must quarantine for seven days; if positive, they will be quarantined under supervision for 14 days.

Goods Transport:

On 29 May, the Greek Government extended the quarantine rules for international truck drivers **until 15 June**. The number of days to be spent in isolation however **has been reduced from 14 to 7**.

Facilitation measures:

Greece has signed these ADR Multilateral Agreements: M324 on driver training certificates and safety adviser certificates, and M325 on periodic or intermediate inspections of tanks and certificate of approval for vehicles.

Source: OFAE

28.05.2020

On 28 May, the Greek Government advised that the relaxation of driving and rest time rules will not be renewed after 31 May. Therefore, Regulation (EC) 561/2006 will apply **from 00:00 on 1 June**.

20.04.2020

The validity of the self-isolation measure in Greece, as described below, has been **prolonged until 15th May 2020**.

On 2 April, the Greek government published a new Ministerial Decree on the quarantine routine that people entering Greece from abroad must follow. Art. 2 of the decree sets out specific provisions for truck drivers, as follows:

Workers of all nationalities engaged in international transport operations (land, air or maritime) must, upon entering Greece and without any delay, either transit through the country or reach their final destination within the country. After having reached the final destination in Greece, drivers must commence a temporary isolation period of 14 days. Trucks drivers travelling from Italy to Greece by ship are requested to fill in the following [form](#).

Exemptions to this rule apply in the following cases:

- When there is a need to start a new international transport operation (e.g. bilateral transport). In this case, mandatory quarantine can be lifted at any time, even the day after it began;
- When there is a need to make a national transport operation (within Greek territory). In this case, the driver must spend at least 7 days in isolation, starting from the day he entered the country. Because of the mandatory week spent in isolation, cabotage operations will not be possible.

The measure now applies from 2 April to 15 May, with a fine of EUR 5,000 to be imposed in the case of any violations.

Source: OFAE

17.04.2020

Regulations on driving and rest times have been temporarily relaxed in Greece. This relaxation is granted pursuant to Article 14 (1) of [Regulation \(EC\) No 561/2006](#).

This temporary relaxation applies **from 18 April and will run until 31 May**. It will apply to all drivers, irrespective of their nationality, when operating on the territory of the Greece.

- Derogation to Article 6(1) of Regulation 561/2006: replacement of the maximum daily driving limit of 9 hours to 11 hours;
- Derogation to Article 6(2) of Regulation 561/2006: replacement of the maximum weekly driving limit of 56 hours to 58 hours;
- Derogation to Article 6(3) of Regulation 561/2006: replacement of the maximum fortnightly driving limit of 90 hours to 96 hours;
- Derogation to Article 7 of Regulation 561/2006: replacement of the minimum daily breaks requirements by imposing a break of 45 minutes after 5 and a half hours;
- Derogation to Article 8(1) of Regulation 561/2006: reduction of the daily rest requirements from 11 to 9 hours;
- Derogation to Article 8(6) of Regulation 561/2006: postponement of a weekly rest period from six to seven 24-hour period or reduction of the regular weekly rest period from 45 hours to 24 hours;

Arrivals by airplane : Passengers of flights from Bulgaria, Romania, U.A.E., Malta, Belgium, Hungary, Spain, Albania and the Republic of North Macedonia will be required to have a **negative molecular test result (PCR) for COVID-19, performed up to 72 hours before their entry to Greece.** This does also apply to Greek citizens, permanent residents of Greece and travellers for essential professional reasons. Travellers should be tested with RT-PCR of oropharyngeal or nasopharyngeal swab.

Only travellers who carry a certificate of a negative RT-PCR test result will be allowed by the border authorities to enter the country. The certificates should be written in English and bear the name and passport/national ID number of the traveller.

The accepted laboratories that perform the RT-PCR testing can be:

- National Reference laboratories
- National Public Health Laboratories
- Private laboratories which are accredited from the respective national accreditation authorities (not necessarily specifically for COVID-19).

Certificates that do not fulfill the above criteria will not be accepted.

Children under 10 years old are not subject to the obligation to a PCR test.

The same requirement will apply to all visitors entering Greece via its land borders. This applies to ALL travellers including Greek citizens, permanent residents of Greece and travellers for essential professional reasons.

In addition to this, all visitors arriving by air, land or sea transport will be subject to random tests upon arrival. After being tested, travellers will be allowed to move to their final destination. In the event of a positive result, they will be contacted and placed on 14-day quarantine, with expenses covered by the Greek state.

Mandatory Travel Documentation

Before entering the country, all travellers must complete a [Passenger Locator Form](#)

09.04.2020

On 31 March, the Greek Ministry of Infrastructure and Transport decided to suspend traffic bans on the movement of trucks from 16 April until 21 April (Orthodox Easter). The suspension will also apply from 30 April until 3 May (weekend of Labour Day).

04.04.2020

On 2 April, the Greek Government published a new Ministerial Decree on the quarantine routine that people entering Greece from abroad must follow. Art. 2 of the decree sets out specific provisions for truck drivers, which are the following:

Workers of all nationalities engaged in international transport operations (land, air, maritime) must, upon entering Greece and without any delay, either transit through the country or reach their final destination within the country. After having reached the final destination in Greece, drivers must commence a temporary isolation period of 14 days.

Derogations to this rule apply in the following cases:

- When there is a need to start a new international transport operation (e.g. bilateral transport). In this case, mandatory quarantine can be lifted at any time, even the day after it started.

- When there is a need to make a national transport operation (within Greek territory). In this case, the driver must spend at least 7 days in isolation, starting from the day he entered the country. Because of the mandatory week spent in isolation, cabotage operations will not be possible.

The measure applies from 2 April up to 20 April.

In case of violation a fine of EUR 5.000 is imposed.

Restrictions

On 22 March 2020, the Greek Prime Minister announced that Greece will impose a national lockdown as of 23 March 2020, 06:00.

Passenger Transport:

- The movement of Greek citizens is heavily restricted within Greek territory. Special written permission is required under certain circumstances. For people going to/from their place of work, an attestation form from their employer is required ([attached in Greek only](#)).

- Foreign citizens are not allowed to enter Greece.

- Greek citizens returning to Greece from abroad must self-isolate at home for 14 days.

- Most international flights to/from Greek airports have been temporarily cancelled.

Goods Transport:

- Goods transport is exempt from all restrictive measures.

- All borders are open for international transport operations.

- Truck drivers are exempt from self-isolation.

- In some cases a Locator Form may be required by port authorities when entering Greece. Truck drivers will be given the form and asked to complete and sign it. The form requires personal and family contact details ([attached in English](#)).

- Currently, it remains unclear whether foreign transport operators /drivers will be required to have an attestation form from their employer (as in point 1 of Passenger Transport above). OFAE has requested further clarification from the Greek authorities on this point.

Relieves

Temporary relaxation of EU Regulation No. 561/2006 or AETR

Valid from 19.03.2020 until 18.04.20 (inclusive):

- Art. 6(1): replacement of the maximum daily driving limit of 9 hours with one of 11 hours.

- Art. 6(2): replacement of the maximum weekly driving limit of 56 hours with one of 60 hours.

- Art. 7: replacement of the minimum daily break requirements by imposing a break of 45 minutes after 5 and a half hours.

- Art. 8(1): reduction of the daily rest requirements from 11 to 9 hours.

- Art. 8(6): postponement of a weekly rest period beyond six 24-hour periods.

15.08.2020

Temporary entry ban to third-country nationals

Greece has prolonged until 31-08-2020 the temporary entry ban to all third-country nationals from any point of entry into the country, by any means of transport, extended on all sea, rail and road connections. The above restriction does not apply to nationals of member states of the EU as well as nationals of countries of the Schengen agreement including their spouses or couples in civil partnership and their minor children.

From the scope of this restriction are excluded citizens of the following countries:

Algeria, Australia, Georgia, Canada, Japan, Montenegro, Morocco, New Zealand, Rwanda, South Korea, People's Republic of China, Thailand, Tunisia, Uruguay and United Arab Emirates. Citizens of the abovementioned countries can be subject to sample laboratory checks.

In order to prove their place of residence, citizens of third countries may supply a residence permit, or a work permit, or their ID provided that it shows their place of residence, or a driving licence or other documents.

From the temporary entry ban to all third-country nationals from any point of entry into the country, by any means of transport are excluded:

- a) medical and nursing staff, researchers and health professionals provided that they show at the points of entry in the country a certificate of professional competence or other documents that document their professional capacity and provided that their entry in the country is related with the exercise of their professional duties
- b) long term residents in member states of the EU and in member states of the Schengen agreement holding a residence permit in EU or Schengen agreement member states
- c) members of government missions
- d) members of diplomatic missions and consulates, members of international and European organizations, members of humanitarian organizations, military staff.
- e) staff employed in the transport sector including naval staff, aircraft crews, crews and technical staff of leased aerial fire-fight transport modes, lorry drivers with the absolutely necessary staff for carriage of goods
- f) passengers in transit
- g) students
- h) people caring for older or disabled people and i) seasonal workers in the agricultural sector.

The abovementioned a)-f) should prove their identity with the appropriate documentation and shall be subject to sample tests. Citizens of third countries that are included in this entry ban have the right to make a request to the diplomatic authorities of their place of residence or stay for their by exception entrance in Greece for professional or personal reasons.

15.07.2020

Temporary restrictions with Bulgaria

Greece extends the already imposed restrictions on all rail and road connections from Bulgaria and a ban on entry to all passengers from Bulgaria with the exception of border crossing point of Promachonas. The ban of entry does not include Greek citizens and holders of residence documents and the entrance of persons for absolutely necessary business trips verified by the appropriate documentation. The transit of lorries for carriage of goods is allowed.

The persons entering -and not belonging to the abovementioned excluded categories- must have undergone a laboratory check (PCR method) for CoVID-19 and will have to be negative to it.

The test has to be done the last 72 hours before their arrival to Greece, in a reference laboratory of the country of origin or transit, or in a public or a private laboratory which has to be certified from the competent certification authority of the country. Similarly, they must have an attestation of the above diagnosis, in English, which will include their name and passport or ID number.
