Due to the regularly changing situation and the constant updating of information, it is essential that you always check for updates and follow the latest guidance from the relevant ministries and official bodies.

Measures by the Government of Japan

1. Areas subjected to entry ban

For the time being, foreign nationals who have stayed in any of the areas listed in the following table within 14 days prior to the application for landing are denied to enter Japan, unless special exceptional circumstances are found.

Note that foreigners from the countries/regions where the entry bans do not apply are not denied to enter Japan, even when traveling via those countries/regions listed in the table for refueling or transit purpose. Those who entered those countries/regions are, however, subject to the entry ban.

Flexibilities concerning the AEO Programme

Japan Customs has introduced the basic policy to refrain from physical contact with traders as far as possible during the outbreak of coronavirus. This measure includes relevant AEO validation processes.

Considering the situation, the necessary physically-checking process in the course of on-site validation by the AEO section has been substituted by the examination on the data, e.g. the facilities' photo, and the company's internal documents, which are communicated via e-mail. Additionally, the necessary documents, including the application for AEO status, could officially be submitted by e-mail, as a general measure for flexibility.

Through these measures, Japan Customs has provided flexible approach to traders for their AEO processes.

Customs clearance procedures relating to countermeasures to the COVID- 19

1. Customs clearance procedures on relief goods, etc.

Customs clearance has been prioritized for relief goods relating to countermeasures to the COVID-19 and for goods such as water and fuel that require an urgent clearance to maintain the lifeline.

Customs duties and consumption taxes are exempted for the importation of abovementioned goods with the submission of simplified declaration form that enables declarants not to submit the certificate for duty exemption for donated goods, etc. (The form can be found at https://www.customs.go.jp/news/news/form_kyuen.pdf)

Relief goods relating to countermeasures to the COVID-19 can be exported with a simplified declaration format.

2. Flexibility in customs procedures

Since it is expected that importers/exporters and Customs brokers telework as a countermeasure to the COVID-19, flexible measures for import/export procedures have been adopted as follows:

- (1) Customs declaration at convenient Customs offices

If it is difficult to lodge Customs declaration to designated Customs office due to the COVID-19, importers/exporters and Customs brokers can lodge import/export declarations to Customs offices which are more convenient to them, based on a prior consultation with Customs.

(2) Relaxation of the requirement of seal

With regard to certain documents on which seals by importers/exporters and Customs brokers are required for import/export declarations or for the submission of such documents to Customs after import/export permission, if it is difficult to seal such documents due to the COVID-19, the requirement of seal is exempted.

(3) Relaxation of the requirement of original copies

With regard to certain documents whose original copies are required to be submitted to Customs at the time of import/export declaration, if it is difficult to submit them due to the COVID-19, the original copies can be submitted by electric means. (N.B. The original copies need to be submitted to Customs by the date designated by Customs. Customs designates the date by taking into account situations of importers/exporters.)

With regard to certain documents whose original copies are required to be submitted to Customs within three days from the day of import/export permission, if it is difficult to submit them due to the COVID-19, the original copies can be submitted to Customs by the date designated by Customs. Customs designates the date by taking into account situations of importers/exporters.

(4) Teleworking of Customs brokers

Offer (consultation) to Customs brokers to start teleworking has been flexibly accepted. Japan Customs permit teleworking to customs brokers flexibly.

(5) Others

- Flexibility in the term for the submission of certificate of origin,
- Flexibility in the lodgment of financial security to extend the term for duty payment.
