### Customs, importation procedure

Measures in place in order to prevent the spread of COVID-19

The Malawi Government has waived duty on the importation of goods for the prevention and treatment of COVID-19 to fight the further spread of the pandemic in Malawi. These goods include:

- Ventilators;
  - Oxygen concentrators;
  - Personal Protective Equipment (PPEs);
  - Hand sanitizers, soaps, water treatment chemicals and such other goods as the Commissioner General may approve.
- The new CPCs that provide for waiver of duty on the importation of these essential goods are as follows:
- 4000.405 for direct imports;
  - 4071.405 for goods from bonded warehouses.

Importers of these essential goods must apply for duty waiver to the Commissioner General and they should specify list of items they are importing, their costs and quantities.

Regular measures in place

Imports by NGOs:

Certain types of goods when imported directly or from bonded warehouses by registered Non-Governmental Organizations (NGOs), are allowed duty free entry or at reduced duty rates. This is possible through the use of various Customs Procedure Codes (CPCs) which specify the types of goods under a particular CPC. This may also apply to Trusts and other charitable organizations.
