## Remarks from the International Road Transport Union

17.06.2020

On 17 June, the Government of North Macedonia issued a protocol on the transit of foreign citizens through the territory of the country. The protocol allows third country nationals to use all border crossing points in order to transit through the country, provided that drivers do not leave the highway or local road and that they leave the country no later than 5 hours after the entry. For enforcement purposes, drivers entering North Macedonia have to fill in a statement that must be handed to border force at the border crossing point of exit.
