Travel - Coronavirus COVID-19

The five-level COVID-19 alert system has been introduced to manage the gradual easing of the lockdown.

This risk-adjusted approach is guided by several criteria, including the level of infections and rate of transmission, the capacity of health facilities, the extent of the implementation of public health interventions and the economic and social impact of continued restrictions.

The country will be on alert level 2 from 00h01 on 18 August 2020.

The country was on alert level 3 from 1 June to 17 August 2020.

The country was on alert level 4 from 1 to 31 May 2020.

The country went into lockdown from midnight 26 March to 30 April 2020. (Alert level 5)

Criteria for determination of alert levels

Alert levels determine the level of restrictions to be applied during the national state of disaster.

(a) 'Alert Level 1' indicates a low Covid-19 spread with a high health system readiness;

(b) 'Alert Level 2' indicates a moderate Covid-19 spread with a high health system readiness;

Alert level 2 -T...n Government.pdf

(c) 'Alert Level 3' indicates a moderate Covid-19 spread with a moderate health system readiness;

Forthcoming

Alert level 3 -T...n Government.pdf

(d) '**Alert Level 4**' indicates a moderate to a high Covid-19 spread with a low to moderate health system readiness;

Alert level 4 -T...n Government.pdf

(e) '**Alert Level 5**' indicates a high Covid-19 spread with a low health system readiness.

Alert level 5 -T...n Government.pdf

The Ministerial Advisory Committee must advise the Minister of Health regarding which Alert Level should be declared nationally, provincially, in a metropolitan area, or a district, when taking into account

- (a) the epidemiological trends of Covid-19 infections;
- (b) the health system capacity in a specified area to respond to the disease burden; and
- (c) any other factor that would influence the level of infection, hospitalisation and mortality.

Epidemiological trends includes a consideration of the trends in the number of tests done, number of persons screened, number of positive cases, number of recoveries and the demographic profile of the positive cases.

Health system capacity includes a consideration of the number of facilities available to support Covid-19, bed-occupancy levels for the various levels of care, human resource capacity, equipment and related resources.

South Africa and the European Commission has relaxed the requirement to insist on the presentation or submission of original certificates of origin to prove the originating status of goods at the time of clearance. Instead, copies or electronic versions of proof of origin will be accepted in an attempt to curb the spread of the COVID-19. In South Africa, the relaxation of the rules is subject to the submission of the original certificates within 12 months after being issued in the European Union (EU). While Article 26 to Protocol I of the SADC-EU Economic Partnership Agreement (EPA) requires the submission of an original proof of origin within ten (10) months, SARS will honour or accept copies or electronic versions of certificates of origin while awaiting the submission of the original versions within twelve (12) months after being issued in the EU.

Traders are encouraged to register for the generous Approved Exporter Scheme, within the meaning of Article 25 to Protocol I of the SADC-EU EPA, which allows an Origin Declaration to be presented in the importing country no longer than two (2) years after the importation of the products to which it relates. Kindly direct all enquiries in relation to this matter to Mr Alfred Ramoroka at aramoroka@sars.gov.za.

- **9 April 2020 – Goods qualifying for import VAT exemption under item 412.11 – COVID-19 measures (Updated the 3 April message on 9 April 2020 to reflect additional exclusion communicated by ITAC, with effect from 8 April 2020)**

SARS wishes to clarify that "essential goods" as defined in Regulation R.398 in *Government Gazette* No 43148 of 25 March 2020, other than the goods mentioned below, are exempt from VAT on importation under item 412.11/00.00/01.00 to Schedule 1 of the Value-Added Tax Act, 1991, read with section 13(3) of that Act.

Goods that are not exempt from VAT on importation are goods that the International Trade Administration Commission (ITAC) has indicated are:

See the [illustrative mapping of essential goods to their relevant tariff headings](#). The illustrative mapping has been prepared at a high level and may include non-essential goods. e.g. Chapters 28 and 29 contain chemicals that are not used for essential goods. Importers must ensure that only essential goods are cleared under item 412.11 to avoid penalties.

Goods excluded from the import VAT exemption under 1) are those goods that are subject to an ordinary customs duty, as set out in Schedule No. 1, or trade remedies (anti-dumping, countervailing or safeguard duty), as set out in Schedule No. 2 to the Customs and Excise Act, 1964. Goods excluded under 2) are also set out in these Schedules. A list of goods excluded under 3) and 4) is available in the relevant ITAC certificate. [Click here for the ITAC import VAT certificate](#) dated 30 March 2020. [Click here for the ITAC import VAT certificate](#) dated 8 April 2020.

Goods that qualify for VAT exemption and are not dutiable fall under the certificate issued by ITAC in this regard and no individual applications need be submitted to SARS or ITAC.

Importation will follow the normal procedure described in the external policy SC-CF-55 – Clearance declaration external policy. The VAT exemption is only valid for direct importations and not to be cleared into bond or warehousing. CPC A 14 must be used for importations from outside SACU and CPC A 12 for importations from the BLNS, with measure 412.11 /00.00/01.00.

During the COVID-19 pandemic, SARS Customs has also set up a command centre to deal with escalations that may have not been dealt with at branch level. Your existing call reference number, transaction (SSM/LRN) can then be sent to osc@sars.gov.za. To save duplication and time, clients are reminded that queries must be sent to the relevant branch /processing centre.

Please note that the VAT treatment of the local supply of goods by an importer or any other vendor is unaffected by the import VAT exemption. The normal provisions of the Value-Added Tax Act, 1991, apply.

Rule amendment to substitute Rule 24.03 to provide for the exemption of foreign-going ships or aircraft from the payment of duty on stores consumed on such ships in any port in the Republic, or on an aircraft on a flight between any places in the Republic for the duration of the national state of disaster. With retrospective effect from 23 March 2020.

- **3 April 2020 – Goods qualifying for a full rebate of customs duty and import VAT exemption under 412.11 – COVID-19 measures**

Importation of supplies critical to the national state of disaster necessitated by the COVID-19 pandemic can be done free of duty and VAT into South Africa.

Importers are required to apply to ITAC for a certificate to use that qualifies them to import under rebate item 412.11.

Qualifying products referred to as "critical supplies" are listed on the [ITAC website](#), as is the application form and the SOP.

The importation of these goods will follow the normal Customs procedure described in the external policy SC-CF-55. The rebate item is only valid for direct importations and no bonded or warehouse clearances will be permitted under this rebate item. CPC A 14 must be used for importations from outside SACU and CPC A 12 for importations from the BLNS, with measure 412.11/00.00/01.00.

If requested to provide supporting documents to Customs, the client would need to upload the certificate issued to the importer by ITAC, along with the standard set of supporting documents to substantiate the import declaration.

During the COVID-19 pandemic, SARS Customs has also set up a command centre to deal with escalations that may have not been dealt with at branch level. Your existing call reference number, transaction (SSM/LRN) can then be sent to osc@sars.gov.za. To save duplication and time, clients are reminded that queries must be sent to the relevant branch/processing centre.

- **3 April 2020 – Treatment of timeframes during period of national lockdown**

Please Note that the [Disaster Management Tax Relief Administration Bill, 2020](#) has been published on the SARS website for public comment. The closing date for comments is 15 April 2020. In terms of proposed clause 5(2)(a)(i) of the Bill, certain time periods prescribed in terms of the Customs and Excise Act, 1964, are suspended for the duration of the national lockdown as defined in clause 1 of the Bill. The time periods that are not extended during the national lockdown are dealt with in clause 5(2)(a)(ii). In respect of these time periods, the current provisions of the Customs and Excise Act, 1964, will apply. Current provisions in terms of the Customs and Excise Act in relation to interest and penalties will continue to apply in respect of non-compliance.

- **2 April 2020 – COVID-19 Export Control Regulation**

SARS has been requested by the Department of Trade and Industry to add the listed goods to its prohibited and restricted list (P&R list) for purposes of export control. It is not a ban. Traders may apply to the International Trade Administration Commission (ITAC) for an export permit, and if granted the goods may be exported. See the [Notice R.424](#) for more information.

- **2 April 2020 – Processing of Rules of Origin certificates during lockdown**

Customs clients submitting Certificates of origin, including: Form A, EUR1, SADC, MERCOSUR and AGOA, will continue to do so at their local branch as per communique dated 26 March 2020 (using an appointment process). However, clients in Durban and Cape Town are advised that Certificates of origin will only be processed during the lockdown period on the following days: Monday, Wednesday and Friday. A skeleton staff complement will be deployed to these two Customs hubs to assist on the abovementioned days for limited hours. Please note that receipt and collection of the certificates is to be done between 08:00 and 12:00 on those three days only.

The hubs are situated at:

- Durban: Albany House
61/62 Margaret Mncadi ave
- Cape Town: SARS Project 166
22 Hans Strydom Avenue

- **1 April 2020 – Draft Disaster Management Tax Relief and Relief Administration Bill**

1. Measures aiming to Facilitate the Cross-border Movement of Relief and Essential Supplies

- 1.1. Essential/emergency goods are prioritised for facilitation across borders.
- 1.2. Member states (SACU) and neighbours have shared their list of essential goods.
- 1.3. All movements are considered within the existing domestic lockdown regulations. All ports of entry operating hours have been shared.
- 1.4. Risk measures in place to combat smuggling and abuse of rebate item provisions.

2. Measures aiming at Supporting the Economy and Sustaining Supply Chain Continuity

- 2.1. Lockdown phase 1 only allowed essential goods to move to end user. Progressively the movement of all goods is allowed with non-essential goods being allowed to be warehoused during lockdown period. Revised relaxed regulations introduced in alignment the 5 different threat levels.
- 2.2. Cross border cargo movements allowed in conjunction with destination country regulations including mode of transport.
- 2.3. Risk measures in place to combat smuggling and facilitation measures in place to alleviate port congestion.

3. Measures aiming at Protecting Customs administrations' Staff

- 3.1. Work from home policy also in place. Phased approach to front line capacity at work based on demand. Work Exemption list in place (seniors above 60/pregnancy & pre-existing health conditions).
- 3.2. Limited face to face interaction, social distancing. Clients make use of electronic communication channels. Client meetings arranged by appointments only.
- 3.3. PPE's (gloves, masks and sanitisers) issued to all staff. Hazmat suits, plastic face masks, goggles and shoes covers also issued to high risk inspectorate. Perspex Screen protectors rolled out to cover all open customs counters. Enviro-friendly Biohazard bins and bags provided to all customs offices.
- 3.4. Office deep cleansing and fumigation plans activated. Social distancing managed and monitored. Temperature testing readers in place. Wellness programmes including call centres in place. Outreach and education programmes in place.

4. Measures aiming at Protecting Society

4.1. Limited external client meetings. Continuous communications. Limited movements under strict controlled measures like permits. Limited gatherings to funeral only (50). No religious gatherings, no cinemas/theatres, no social and public gatherings. Social awareness programmes.

4.2. Testing stations made available, mobile testing units already activated. Additional emergency beds and stations available.

4.3. Roadblocks and mobile enforcement units to ensure adherence to lockdown regulations.
