Outcome of the 4th session

See ECE/TRANS/WP.29/1166, para. 50

50. The representative of the United Kingdom of Great Britain and Northern Ireland, Co-Chair of the IWG on Intelligent Transport Systems (ITS) reported on the outcome of the fourth session of the IWG on ITS on 17 June 2022. He explained that the group reviewed the progress made in the implementation of the revised UNECE Roadmap on ITS, adopted in February 2021 and discussed ways to materialize the outcomes of these activities by e.g. updating the UNECE ITS publication with support by the IWG. He reported on the involvement of the Group in the organization (together with the International Telecommunication Union) of the annual symposium on the Future Networked Car (FNC) in March 2022 and its session 1 highlighting UNECE and authorities' activities on ITS. He proposed to WP.29 that the webinars organized by the Group's leadership and the secretariat would be scheduled for winter 2023 and that the Group's leadership would represent WP.29 at the 2023 session of the UNECE/ITU symposium.
