Transport - Rails Team	
	**Naresh BANA** **Team Leader** **Area of Work:** Founder and Managing Director BBV Consultants LLP (www.bbvconsultants.com) Founding Member and Executive Vice Chairman Indo – Sri Lanka Chamber of Commerce and Industry (www.iscci.org.in) **Country:** India **Experience:** Naresh Bana, F.I.E., M.I.M.A., M.I.P.W.E., is an engineering professional with adequate industry experience. An Infrastructure man, his professional career can be divided into four distinct phases. The first twenty years spent in evolving into a self initiated, quality conscious, innovative and dependable senior engineer and leader. Next three years in leadership role in Kashmir Rail Project where his capacities got recognized not only at organizational but also at the National level. He then got a challenging assignment for two years as head of planning for a large road building company of India. Having excelled at the assigned responsibilities and further honing skills at Harvard Business School, he moved on to set up and lead an infrastructure consultancy in New Delhi. An engineer, businessman and leader, he has adequate reach in Government, Industry, IGO and NGO sector.

Jonathan BECKITT

Former Team Leader

Area of Work:

Consultant - Infrastructure & Project Finance Group
CMS Cameron McKenna LLP

Country:

United Kingdom

Experience:

Jonathan is a consultant in the Infrastructure & Project Finance Group of CMS Cameron McKenna LLP with particular expertise in PPP/PFI, both in the UK and internationally.

He joined CMS in 1982 and has practised in London, the Far East and Japan, where he was the resident partner in the firm's Tokyo office from October 1991 to June 1994. He was a partner in the London office from July 1994 to April 2015.

The Infrastructure & Project Finance Group at CMS has a Tier 2 ranking in the Legal 500 2014 Edition, with Jonathan listed as a named partner http://www.legal500.com/firms/557/offices/341

Jonathan has a special interest in the Rail sector, and is featured in Band 3 of the Chambers and Partners 2015 rankings where he is highlighted for his knowledge on PPP/PFI. "He is able to pull deals together because of his back catalogue of knowledge" http://www.chambersandpartners.com/11805/50/editorial/1/1

Recent Experience - Rail

- **High Speed 1**

Jonathan was the lead external legal adviser to the UK Department for Transport on the High Speed 1 project for over 15 years. He was responsible for co-ordinating the provision of legal advice in relation to a wide range of commercial matters and advised the Department on the sale of the concession to operate and maintain the high speed line to Borealis Infrastructure and Ontario Teachers' Pension Plan for £2.1billion in November 2010.

Winner – Regulatory Team Of The Year – Legal Business Awards 2011

Shortlisted and recognised as "stand out" in the Corporate category for his work on developing a new regulatory framework to govern the UK's first high speed rail line, High Speed 1 – ***FT Innovative Lawyer Awards 2011***

- **Government of India, Ministry of Railways - New Delhi Railway Station**

Advising the Government of India, Ministry of Railways in connection with the proposed redevelopment of New Delhi Railway Station, on a Public Private Partnership (PPP) basis. The project also involves the regeneration of a large area of adjoining railway land.

- **Nottingham Express Transit (NET Line Two) PFI project**

Advising Tramlink Nottingham in connection with the second phase of the Nottingham Express Transit (NET Line Two) PFI project. The existing NET Line One arrangements have been terminated and, under a new concession agreement, the contracting authority will procure the design, construction, financing and commissioning of two further lines, together with the operation and maintenance of the entire extended network over 23 years.

Jeroen HUISKAMP

Area of Work:

Consultant

Country:

The Netherlands

Experience:

Business Manager with engineering background, experienced in the development and execution of international transportation projects. I have worked for Contractors, Public Authorities and Engineering Consultancies in various countries.

The above experiences combined with strong analytical skills have given me a good understanding of the critical business drivers in large, multidisciplinary design projects. My strength is defining business- and project strategies, leading engineering teams, business development, building relationships with (project) stakeholders, seizing control of critical problem areas and delivering on client commitments.

- Project and Contracts Management in various large transportation projects (Rail, Metro) in Europe, Northern Africa and S-E Asia (ongoing)
- Business Development in Transportation, aiming at providing private companies and investors with value engineering solutions (ongoing)
- Line Manager in the Transportation Engineering Industry, having led Team of Designers at Contractors and Consultancies in Holland, Germany and Poland
