Team Members - Impact Assessment Tool

Melissa PENEYCAD

(Canada)

Project team leader

Managing Director & Director Sustainable Projects, Institute for Sustainable Infrastructure (ISI). She has 20 years' professional experience, most of which have focused on developing, implementing, and administering sustainability and resiliency standards, frameworks, and rating systems for infrastructure, commercial real estate, and industrial products. Since joining ISI in 2016, Melissa has verified the sustainability and resiliency of more than 70 infrastructure projects across the US, Canada, and overseas, collectively worth more than US$25 billion with another US$25 billion in infrastructure development under her purview. Prior to ISI, Melissa was an associate of sustainable development at Stantec, a global engineering, consulting and design services firm and was the national sustainability program manager for BOMA Canada, a prominent commercial real estate association. Melissa has a Bachelor of Commerce degree, a Master of Environmental Studies degree and a Graduate Diploma in Business and Sustainability.

More details.

Joan Enric RICART

(Spain)

Project team leader

Carl Schrøder Professor of Strategic Management, IESE Business School. He has been Chairman of the Strategic Management Department at the IESE Business School for 23 years. He is a Fellow of the SMS and EURAM and he was the Founding president of the European Academy of Management (EURAM) and President of the Strategic Management Society (SMS). He has published several books and articles in leading journals as Strategic Management Journal, Harvard Business Review, Journal of International Business Studies, Econometrica or Quarterly Journal of Economics. His current research focused on business models and Cities. He is co-academic director of IESE Cities in Motion and academic director of the Specialist Centre of Excellence on PPPs in Smart and Sustainable Cities.

James STEWART

(United Kingdom)

Project team leader

Joined KPMG in May 2011 as chairman of KPMG's Global Infrastructure practice. In his role he has visited over 40 countries to discuss their infrastructure investment programmes. Prior to joining KPMG, James was Chief Executive of Infrastructure UK and before that Chief Executive of Partnerships UK. In these roles James has been at the centre of the UK Government's thinking on PFI and PPPs and has had a significant involvement in many of the major projects and programmes in the infrastructure market; eg Crossrail, LIFT, Building Schools for the Future. James was responsible for the publication of the UK's first National Infrastructure Plan. He is a Fellow of the Institute of Civil Engineers and a member of the World Economic Forum Infrastructure Global Agenda Council.

Sub-group: Access and equity

Doris CHEVALIER

(France)

(Sub-group leader)

Civil engineer from the Ecole des Ponts et Chaussées de France and a recognized expert from his peers in project financing and in particular PPP. After having worked for more than 25 years for large private groups (Vinci, Bouygues, Alstom), public entities (Autoroute du sud de France, Ministère des Finances - Unit PPP) and in investment funds, mainly in main funding roles for infrastructure, she created her company INFRABOOST in 2015 to serve as structural finance consultancy in project finance. She has participated in more than 20 billion euros in projects worldwide and has been in charge of implementing State Guarantee projects for infrastructure in response to the 2008 financial crisis. She is a pioneer in Impact Finance.

Doris Chevalier has supported the work of the PPP UNECE team since 2014 and is also an expert for the European Commission (INEA & H2020 PME program), member of the DRBF (Dispute Board Resolution Foundation) and administrator of Paris International Airport.

Sub-group: Stakeholder engagement

Amanda LOEFFEN

(United Kingdom)

(Sub-group leader)

Chief Executive of 'Human Right 2 Water', with a goal to provide sustainable solutions based on human rights to improve water governance worldwide. She is an experienced general manager and business development executive in water, energy and sustainable development, with international experience in Australasia, Europe and North America. She acts as subgroup leader on behalf of the United Nations Economic Commission for Europe to design an evaluation methodology for infrastructure projects, measuring their contribution to the UN Sustainable Development Goals 2030. Director General of WaterLex until 2019, she led a team of water governance experts to encourage law and policy reform. Previously, leading a project management company in New Zealand, Amanda delivered environmental resource consent for a large community water infrastructure scheme for irrigation and hydro-generation. This involved an extensive community and multi-stakeholder engagement programme to adapt the project to meet all stakeholder demands for environmental, social, cultural, and economic impacts.
